

With significant knowledge, expertise and experience in Asian language and culture, pedagogy and professional development, the ALLiS team at ILEP are here to help you maximize the benefits of ALLiS funding.

How we can support

Our ALLiS team offers **comprehensive and specialised support** to schools with ALLiS funding.

Our mobile team can meet with school management and ALLiS coordinators across New Zealand for personalised **in-house guidance** for the planning and implementation of language programmes.

Language-specific pedagogical support for teachers is available for Chinese, Japanese and Korean language.

Workshops will be run for ALLiS Coordinators across New Zealand and within your cluster area.

Professional development workshops are offered to teachers of Asian Languages and **structured programmes** which cater for teacher abilities from introductory to experienced.

Private **online platforms** enable the sharing of ideas and information between schools. Through these spaces, ILEP will also give **remote assistance** and deliver **webinars**.

Teachers in ALLiS schools can take advantage of **scholarships** and other opportunities available through ILEP's network of partners.

Helping to convert ALLiS funding into success

I have been a language teacher for fifteen years and have taught in New Zealand and in Europe. Although I originally started out teaching French, German and ESL, I have been learning Mandarin and teaching Mandarin at Years 9 & 10 over the past five years. I am really looking forward to meeting and sharing with both well-established Asian language teachers and teachers who are starting out on their new journey of teaching an Asian language.
